

## Hot Air Furnaces and Cooking

Not All Furnaces are Cooling  
Ranges.

Gentlemen about erecting  
Dwellings and wishing to ob-  
tain the best Furnace in the  
United States, will please  
call and examine my exten-  
sive assortment, which can  
not be equalled elsewhere.  
The important improvements  
in these Furnaces over other  
kinds, in producing the large-  
est amount of pure, whole-  
some air, has resulted in their  
being very extensively intro-  
duced into this and other  
cities—the increasing de-  
mand for them is such, as to  
induce me to extend the man-

special attention given in the erection of Furnaces in Dw

ings, Churches, &c. References as to their perfect operation given in any extent that may be required, from gentlemen of the first respectability in the city and vicinity. Also, the largest and best assortment of COOKING UTENSILS that can be found in any one establishment, including Firebricks ordered from New York, Range, stoves of all sizes for Hotels, &c. For sale, wholesale and retail, at the STOVE and HOT AIR FURNACE ESTABLISHMENT, Nos 51 and 52 Blakely street, GARDNER CHILSON.

**The American Air-Tight Cooking Stove.**

**PIERCE'S PATENT**  
four sizes for 1846, fitted for

wood or coal. All purchases of Stoves be sure and examine this invention. The sub-

ber has the utmost confidence in its superior merit, believing it to be without exception, the most perfect, convenient, and economical stove ever offered to the public. It is the opinion of all who have examined it, that it will supersede all other COOKING STOVES in use; it has more actual improvements and necessary conveniences about it, than can well be described here—a few among the many are such as having the top of the oven fire brick, which gives it all the advantages of a brick oven; the bread will rise and bake better; the steam is absorbed into the brick; this improvement is of great importance. The facilities for roasting in front, with its oven, are unsurpassed; the hearth or mantle is a great improvement for broiling, boiling, &c. &c. with hard coal, charcoal, or wood, is an admirable arrangement. The grate cleans itself, discharging the ashes into the ash pit. The flues are so arranged as not to fill up with ashes; the stove has a large oven and six boilers.

Also—A complete assortment of the Trojan Pioneer, and other Cooking, Parlor and Stove Stoves. The largest and best assortment of Cooking Ranges, including the new celebrated New York Range; a large and valuable assortment of the subscriber's well known List Air Furnaces, for heating dwellings, stores, churches, &c.

All of the above for sale, wholesale or retail, on the most favorable terms.
